

RAJASTHAN PRIORITIES

An India Consensus Prioritization Project

WORKING WITH

30-50 economists including Nobel Laureate level, 1,200 sector experts engaging government, donor organizations, civil society, development agencies, businesses, youth, across rural and urban areas.

...to identify, analyze and prioritize interventions that will deliver greater benefit per rupee spent, helping move India towards a more prosperous long term future.

A lot of ideas but little prioritization

From all spheres of policy, for example:

- Central Government Plans and Strategy
- State Government Plans and Budgets
- 1000s of NGOs and development organizations initiating their own programs

State budget:

Rs 1,81,754 crore

We want to give tailwind to good ideas and headwind to bad ones.

Shifting just 1% of spending could generate billions of rupees worth of social, environmental and economic benefits for the state.

Sourcing ideas and solutions

880+ ideas on policies & investments

Complete set of papers on 60-80 solutions

PRIORITIZATION

OUTREACH

Continuous engagement with the public via electronic, print and social media

Working with civil society, government and sector experts

Widely advocating results of prioritization exercises
